Re: Letter to Parents - Health/PE Adoption

Dear Parents and Guardians of SFPS Students,

This communication is to notify SFPS families of the recent Health and Physical Education instructional materials made available to our schools for the 2018-2019 school year. The materials were purchased as part of the State's six-year adoption cycle established by the New Mexico Public Education Department (PED).

These new materials will serve students enrolled in health/wellness curriculum for Grades 6-8 and 9th Grade Health classes. For students in K-12 there are Physical Education curriculum kits and new sports/fitness equipment.

According to SFPS Board Policy, families will be notified this year of the instructional materials process. In the 2018-2019 school year, instructional materials under review for adoption are the content areas of the Sciences and of the Arts. Parents and community members will be invited to participate in the adoption process.

Additionally, Board Policy states that the district is to notify the parent, guardian or student of their responsibility for any loss, damage or destruction of instructional materials while in the possession of the student.

Of paramount interest to SFPS is the well-being of our students. The recently adopted Health and PE materials will ensure teachers have access to most up-to-date curriculum available. Should you have questions regarding instructional materials, please contact the District Instructional Materials Coordinator Ms. Erica Wheeler at [ewheeler@sfps.k12.nm.us](mailto:ewheeler@sfps.k12.nm.us) or 467-4728.

Sincerely,

A handwritten signature in black ink that reads "Veronica C. Garcia". The signature is written in a cursive style.
